

Bio Disc

World Exclusive Product

What is Bio Disc?

- *The Bio Disc is a natural energy generating device that produces SCALAR energy frequencies that have no negative side effects.*
- *The energy created specifically rejuvenates molecular structures in all liquids.*
- *The molecular structure causes any liquid to become more hydrating, taste better and extend shelf life.*

What is Made of?

- *The Bio Disc is made of 13 TECHNICALLY ENGINEERED natural minerals*
- *A NANO FUSION process using several high heat fusion methods, structurally bonds the minerals together, at a molecular level.*
- *The combination of the minerals and the fusion techniques produces a catalytic conversion of energy known as “Scalar energy”.*
- *This 21st century technology develops a long lasting natural Scalar resonance which has the ability to be transferred to any liquid, renewing the natural molecular chains.*

How does the energy transfer to the water using the Bio Disc?

- *The Bio Disc energy spins into the liquid, counter clockwise,*
- *or the liquid can be poured over the bio disc where it 'picks up' the resonance.*
- *The resonance generated is similar to that which is found in the earth surrounding many healing spring waters of the world.*
